*Dear Shri. Agarwal,*

This is to appreciate UP-100 which is an outstanding example of use of technology for catering to the urban and rural populace of the state. The infrastructure, software and hardware part of the technology were highly appreciated by the members of the MM:04 of BPR&D that deals with infrastructure. Your personal commitment to the cause was apparent throughout our visit. Constant review and adaptation during the first year shall enrich the system. I congratulate you and your team for the extraordinary work done by you.

BPR&D is recommending this model to other States also who may send their representatives to visit UP-100.

*Regards,*

Yours sincerely,
